City Non-School & Non-Self Supporting Personnel Analysis

With the projected cost of personnel at \$18.7 million dollars or 75.7% of the General Fund non-school operating budget the need to stringently monitor this area of the operating budget is of the highest importance. With this in mind the Mayor has looked to make efficiency improvements through reorganization so as to maintain the present level of services where possible. This process has reduced the General Fund staffing level by 14 positions.

The table below shows the City's non-school headcount over the last two years, by department and illustrates the changes made over this time period. Further detail breakdown can be found within each departmental presentation.

Expenditure Breakdown

Revenue Breakdown

GENERAL FUND REVENUE

In accordance with current state law the City budget is developed with various revenue limits in place, therefore a key component of the budget development process is the identification of revenue assumptions and projections to determine available resources. This gives community leaders the financial parameters with which to develop the City budget. Under this method of revenue limits municipalities within Massachusetts develop their budgets with a revenue first approach, then reducing the available resources with fixed and semi fixed costs leaving the remainder available for use within the operating budgets. This allocation of available resources is the main topic of the budget process.

Financial Resources

City revenues are divided into five basic categories as defined in the City Recap Sheet. The recap sheet is the document used by local and state officials to determine the tax rate for the coming fiscal year. The categories are listed in the summary below.

	ADJUSTED BUDGET FY 05	MAYOR BUDGET FY 06	DOLLAR CHANGE FY05/06	PERCENT CHANGE FY05/06	PERCENT BUDGET

TOTAL REVENUE	122,124,255	129,983,516	7,859,261	6.4%	100.0%

Property Taxes

The primary sources of revenue for municipalities in the Commonwealth are the real property tax and personal property tax. For purposes of taxation, real property includes land and buildings and improvements erected or affixed to land. Personal property consists of stock, inventory, furniture, fixtures and machinery. The City's Board of Assessors determines the value of all taxable land, which is revalued at fair market value every three years and updated every year. Fiscal Year 2008 is the next scheduled revaluation year for the City.

Proposition 2½ places constraints on the amount of tax levy that can be raised by a city or town, and on how much the levy can be increased from year to year.

A levy limit is a restriction on the amount of property taxes a community can levy. Proposition 2½ established two types of limits:

First, a community cannot levy more than 2.5 percent of the total full and fair cash value of all taxable real and personal property in the community. This is the levy ceiling.

Second, a community's levy is also constrained in that it can only increase by a certain amount from year to year. The maximum amount a community can levy in a given year is the levy limit. The levy limit will always be below, or at most, equal to the levy ceiling. The levy limit may not exceed the levy ceiling, except as indicated below.

There are three major factors that influence the amount of revenue generated by the real and personal property tax:

1. Automatic 2.5% increase – Each year, a community's levy limit automatically increases by 2.5% over the previous year's levy limit. This does not require any action on the part of local officials.
2. New Growth – A community is able to increase its tax levy limit each year to reflect new growth in the tax base. Assessors are required to submit information on growth in the tax base for approval by the Department of Revenue as part of the tax rate setting process.
3. Overrides/Exclusions – A community can permanently increase its levy limit by successfully voting an override. Debt and capital exclusions are temporary increases in a community's levy limit for the life of the project or its debt service. Only debt or capital exclusion can cause the tax levy to exceed the levy ceiling

State Aid (Cherry Sheet)

Chapter 58, Section 25A of the Massachusetts General Laws provides that the Commissioner of Revenue estimate the State's funding of local reimbursement and assistance programs as authorized by law and appropriated by the legislature. Local assessors are required to use these figures in determining the local property tax rate.

Generally speaking, funds are allocated either through distribution formulas or reimbursement formulas. Distribution formulas often incorporate equity factors such as property wealth, income and effort. Reimbursement formulas provide full or partial funding for program expenditures or foregone revenues.

In addition to reimbursements and distributions, it should also be noted that certain programs are designated as "Offset Items." These items are amounts that constitute categorical aid, i.e., funds that must be spent for specific municipal programs.

Funds received under programs designated as "Offset Items" may be spent without appropriation in the local department. All other receipt items on the Cherry Sheet are considered revenues of the municipality's general fund and may be spent for any purpose, subject to appropriation. Beginning in FY2004, Cherry Sheets include receipt items for Charter Tuition Assessment Reimbursement, School Choice Receiving Tuition, Charter School Capital Facility Reimbursement and Essex County Technical Institute Receiving Tuition. State Aid revenue for this budget is based on the Current House Budget.

School Aid

Chapter 70 (Education Aid)

The Education Reform Act of 1993 continues to have a substantial impact on municipal finance and, in particular, on the level of local aid received by municipal school districts. Education Reform was undertaken in an effort to ensure both equitable and adequate funding of the Commonwealth's public schools over a seven-year period. FY2000 was the seventh and final year of mandated state funding increases.

Although FY2000 marked the final year of prescribed state funding increases contained in the Education Reform Act, the school finance formula remains operative in statute. Annual budget language and education aid appropriations since FY2000 have altered the funding formula to some extent. At this point, it is unclear how future legislation will affect the calculation of local contributions and state aid for education. Currently at the state level the focus has been to maintain foundation budget spending levels in all districts.

School Construction - In July of 2004, the governor signed Chapter 208 and Chapter 210, of the Acts of 2004 into law, which makes substantial changes to the School Building Assistance (SBA) Program. This legislation (Ch. 208) transfers responsibility for the School Building Assistance Program from the Department of Education to the Massachusetts School Building Authority (MSBA), under the Office of the State Treasurer. The authority is a new and independent governing body comprised of seven members. The legislation under Chapter 210 dedicates 1 percent of the sales tax receipts to help fund School-Building projects.

The authority shall examine applications for assistance and designate a school project as approved if it meets the following requirements. The school project will be viewed with respect to its site, type of construction, sufficiency of accommodations, open space preservation, urban development, urban sprawl, energy efficiency and otherwise. The project must be necessary to meet educational standards of the curriculum frameworks established by the board of education. The project must have a value over its useful life and be within the capacity of the authority to finance within revenues projected to be available to the trust.

A major feature of the new law is the up front cash grant program. When a project is approved for funding, the program will make a single payment for 75% of the full amount of the state's reimbursement. The balance of the state share will be paid when the project audit is completed.

The listing of approved projects the city is currently receiving funding is in the table below:

School		Funding
Golden Hill Elementary	Debt Excluded	\$526,650
Silver Hill Elementary	Debt Excluded	\$476,389
Bradford Elementary	Debt Excluded	\$738,679
Pentucket Lake Elementary	Debt Excluded	\$738,679
Nettle		\$930,073

The listing of Haverhill approved projects can be found below and is expecting funding by FY2008:

Priority Number	School	Project	Rate
342	Hunking	Boiler	68.48%
343	Whittier	Boiler	68.48%
344	Tilton	Boiler	68.48%
345	High School	Renovation	68.48%

Charter Tuition Reimbursement- Sending districts receive assistance through the charter tuition reimbursement formula in December, March and June for those students that elect to attend a charter school. Sending districts are reimbursed a portion of the costs associated with pupils attending charter schools beginning with the second quarterly distribution. Cherry Sheet estimates are derived from projecting upcoming school year enrollment and tuition rates from data collected in March of the current fiscal year. Charter schools are required to finish their enrollment report by March 15th of the current fiscal year. By April 1st, DOE must report to each district the number of students who are anticipated to attend charter schools during the upcoming school year. When providing the Division of Local Services' with cherry sheet estimates, DOE uses the most current information available at the time.

There are three levels to the reimbursement:

- 100 percent of the tuition increases in the first year
- 60 percent of the tuition increases in the second year
- 40 percent of the tuition increases in the third year

In addition, the reimbursement covers 100 percent of the first-year cost of pupils at charter schools who attended private or independent schools in the previous year. The reimbursement also covers 100 percent of the cost of any sibling students whose tuition brings a district above its statutory assessment cap of 9 percent of net school spending. The reimbursement is subject to appropriation in the final budget for the Commonwealth. Second quarter reimbursements to sending districts are based on increases in tuition costs for the current school year. Spending and enrollment data are subject to change after the initial figures become available in December. The remaining two quarterly payments are based on updated tuition costs using any revisions to tuition rates and enrollments as data are finalized during the year. Payments are intended to equal approximately one third of Massachusetts Department of Revenue Division of Local Services 22 Cherry Sheet Receipt Programs the projected annual amount, however; payments in the final two quarters include adjustments to correct any over or under payments in prior quarters.

Charter School Capital Facilities Reimbursement - Sending districts receive assistance through the capital facility reimbursement in December, March and June for costs associated with capital facilities. When DOE calculates a charter school's average cost per pupil, a capital facilities component is added because foundation budgets and net school spending do not contain this part of a school district's budget. The statewide average of what districts paid in the prior year for both principal and interest on land and buildings is added to each pupil's tuition rate.

School Choice Receiving Tuition -To provide funding to receiving districts for accepting pupils from other districts.

Each district's Student Information Management System (SIMS) submission in October is used to determine the current school year's December and March estimates. Tuition rates are based upon 75 percent of the prior year's per pupil expenditure in the program each pupil is enrolled in. Rates are capped at \$5,000 per pupil, except for special education students, whose full cost is paid by the sending district. Each special education pupil's special education cost is based upon the number of hours provided for particular interventions specified by his or her individualized education plan.

Non School Aid

Police Career Incentive - Under Chapter 41 of the General Laws, members of participating police departments receive a salary increase predicated on the number of college credits earned toward a law enforcement degree. The Commonwealth will reimburse the City one-half of this salary increase. Under the revised law, officers will be awarded a ten percent increase in their base pay for a ten percent increase for an Associate's Degree, a twenty percent increase for a Bachelor's degree and a twenty-five percent increase for a Master's degree.

Veterans' Benefits And Aid To Needy Dependents Of Veterans - Under Chapter 115, Section 6, each municipality can submit an application to the State Department of Veterans' Benefits for reimbursement of amounts expended for veterans' benefits. The State Commissioner of Veterans' Services shall reimburse seventy-five percent of the total expenditures of veteran's benefits.

Real Estate Abatements - The State Cherry Sheet reimburses the City for the loss of taxes due to real estate abatements to veterans, surviving spouses, and the legally blind.

The amounts of exemption granted to individuals and the amounts reimbursed to municipalities by statute are as follows:

- Surviving spouses, minor children, elderly persons:

Clause 17 - \$175, full reimbursement

Clauses 17C, 17C½, 17D - \$175, reimbursement cannot exceed the amount reimbursed under Clause 17

- Veterans

Clause 22(a-f) - \$250 exempted, \$75 reimbursed

- Paraplegic veterans, surviving spouses:

Full amount, 100 percent minus \$175 reimbursed (§8A)

- Veterans, loss of one arm, foot, or eye:

Clause 22A - \$425 exempted, \$250 reimbursed

- Veterans, loss of two arms, two feet, one arm and one leg, or loss of sight:

Clause 22B - \$775 exempted, \$600 reimbursed

- Veterans, special adapted housing:

Clause 22C - \$950 exempted, \$775 reimbursed

- Veterans, surviving spouses, Quemoy & Matsu only:

Clause 22D - \$250 exempted, \$250 reimbursed

- Veterans and Surviving Spouses, 100 percent disability:

Clause 22E - \$600 exempted, \$425 reimbursed

- Blind persons:

Clause 37 - \$437.50 exempted, \$87.50 reimbursed

Clause 37A - \$500 exempted, \$87.50 reimbursed

Elderly Exemption - To reimburse municipalities for property tax exemptions granted to qualifying people at least 70 years of age who meet certain "whole estate or total assets," annual income, and residency requirements. The exemption amount for each individual is \$500.

Additional Assistance - The Additional Assistance program currently provides aid to 159 communities. From FY1992 through FY2002, these aid amounts had been level funded. In FY2003 the governor and legislature reduced this appropriation by 6.5 percent. Final FY2003 Additional Assistance aid was reduced by \$41.6 million from the Cherry Sheet estimate to reflect the Governor's 9C Local Aid reductions. In FY2004 the governor and legislature further reduced this appropriation by 6.2 percent from the FY2003 actual amount distributed. In FY2006 the Additional Assistance program was level funded at the FY2004 program amount.

State Owned Land - Under Chapter 58, Section 13, 71A & 17B and Chapter 133, Acts of 1992, the Commonwealth provides financial compensation to communities in which certain types of state owned land is located. Payment is for the amount of tax on the land as if the parcel were held privately, not for buildings or any other improvements erected on or affixed to the land.

Local Receipts

The City uses a strategy of basing local receipt estimates on “estimates of predictable, sustainable revenues”. The following are descriptions of some major receipt categories and a listing of all estimated local receipts.

Motor Vehicle Excise Tax Receipts - State law (Proposition 2 ½) sets the motor vehicle excise rate at \$25 per \$1000 valuation. The City collects these monies based on data provided by the Massachusetts Registry of Motor Vehicles. Valuations are determined by the Registry using a statutory formula based on a manufacturer's list price and year of manufacture. In January 1992, the Registry of Motor Vehicles implemented a new computer tracking system that will force auto owners to pay their excise taxes. Those who do not pay will not be allowed to renew registrations and licenses.

Delinquent Interest and Penalty Charges - The City receives interest and charges on overdue taxes. Interest rates for overdue real and personal property taxes are 14%, and for tax title accounts, 16%. The interest rate for delinquent excise tax accounts is 12% starting on the due date. State law dictates the interest rate for taxes, while local bylaw sets water/sewer charges. If real and personal property taxes are not paid by May 1, in the year of the tax, a demand for payment notice (\$5.00) sent to all delinquent taxpayers. Delinquent motor vehicle taxpayers are sent a demand (\$5.00), a warrant (\$5.00), and two separate notices from a deputy tax collector (\$9.00 and \$14.00). The deputy collector's earnings come solely from delinquent penalty charges in lieu of a salary. Demands are \$5.00 but warrants are not issued for delinquent water/sewer service accounts, which are subject to a lien on the real estate tax bill. Once a delinquent real estate account goes into a process of tax title, there are other fees added to the property tax bills. These charges include the cost of recording the redemption (\$10.00/20.00) and demand notices.

Waste Disposal Facility Payment – In accordance with Chapter 16 Section 24A; “The operator of a privately owned or operated resource recovery facility or landfill shall pay to the city or town in which the facility or landfill is located a tax of one dollar per ton of solid waste processed at the facility. Said tax shall be increased every January first, effective January first, nineteen hundred and eighty-one by the percentage increase of the Boston Consumer Price Index for all urban consumers for the twelve month period ending the previous October first. Such tax shall be in lieu of all taxes, fees, charges or assessments imposed by the city or town in which the facility or landfill is located, except for real estate taxes imposed solely upon the land on which the said facility or landfill is located. For purposes of this section, a solid waste disposal facility or resource recovery facility shall not include a transfer station.”

Permits and Fees – The Council is charged with setting fees and permits for various program not already fixed by State law. Over the last two fiscal years most city fees have been reviewed and subsequently increased. As in the past the Mayor ordered a review of all departmental fees and any proposals for new fees. The resulting request for changes to the city’s fees will be forwarded to Council by the Mayor under a separate cover.

Operating Transfers/Other Sources

Operating transfers are made from other funds to reimburse the General Fund for indirect cost recovery. Other Sources are revenues of a non-recurring nature. This budget has continued the practice of using 'one time' revenue for operating expenses.

Human Resources

Statement:

The mission of the Human Resources Department is to provide the City and its residents with a competent well-trained workforce that supports and promotes the municipality's ability to operate effectively.

This Department engages in hiring, recruiting and the retention of skilled, motivated individuals. It strives to enforce fair labor practices and manages employee benefits such as insurance and the deferred compensation plan. The department establishes and monitors policies and procedures and coordinates and participates in collective bargaining sessions with union groups.

City Clerk/Licensing

Office of the City Clerk: Mission Statement:

The City Clerk is the head of the City's Department of Records and is keeper of the City archives, keeper of vital statistics, and is the custodian of the City seal and all public records. In addition, the City Clerk is the administrator of the oath of office to all City Officers and performs all duties with regard to the conduct of elections and other such matters provided by General Laws.

City Clerk: Duties and Responsibilities:

1. Keep systematic files of all public records of the City.
2. Establish and maintain procedures for the keeping of vital statistics; assure the prompt issuance of the correct vital statistic records as requested.
3. Establish and maintain systems for keeping records of municipal meetings.
4. Maintain legally required postings on the City bulletin board.
5. Issue dog, fishing, hunting and other licenses; collect fees for licenses.
6. Receive claims against the City and provide claimant with information as to procedures.
7. Administer the oath of office to all City officials.
8. Prepare, distribute, receive, review for accuracy and record the City census.
9. Administer all elections.
10. Provide pertinent legal documents to City departments that are impacted by law, ordinance, or contract.
11. Prepare City Council agenda and maintain a file of all City Council documents. Prepare minutes of City Council meetings.

City Auditor

Statement:

The responsibilities of the Auditing Department are to perform pre-audits of all invoices and payrolls submitted for payment by City departments, produce timely and accurate financial reports and enforcement of the City's budget.

Departmental Overview:

The City Auditor and employees of the Auditing Department act as "watchdogs" for the Mayor and City Council. The City Auditor is also an "ex-officio" member of the Haverhill Retirement Board. The Auditing Department has four primary functional areas: [Accounting](#), [Accounts Payable](#), [Payroll](#) and [Budgets](#).

- The **Accounting function** maintains and analyzes the City's financial records and prepares the City's Comprehensive Annual Financial Report and State-required Schedule A report relative to the City's finances. The Department coordinates the City's annual participation in the Federal "Single Audit" performed by an independent public accounting firm, and compiles a comprehensive annual listing of all of the City's fees and charges. The Department prepares various reports in response to City Council requests, maintains a inventory of the City's fixed assets, including an annual physical inventory, and performs the Statutory requirements as described in Chapter 41 of the Massachusetts General Laws. Additionally the Department participates in credit reviews of the City and preparation of Bond Offering Statements.
- The **Accounts Payable** responsibilities of the Department are: to pre-audit every invoice paid by the City for accuracy, propriety and to ensure funds are available for payment, to ensure that funds are available before the City enters into various contracts, and to monitor the payments against those contracts. In addition, the office enters the City's expenditures, journal entries, cash receipts, disbursement packages to City ledgers, and files and stores vendor invoices and accounting journals.
- For **Payroll**, the Department is responsible for the filling and storage of payroll registers, approval of the payroll warrant and enforcing the budget for payroll accounts.

For the **Budget** the Department assists all other departments in the preparation of their annual budgets, performs analysis for the Mayor in preparing his budget and evaluates different proposals from various departments. The Department also compiles the completed budget and works with the Mayor and Council throughout the budget conferences.

Treasurer/Collector

Statement:

The Office of the Treasurer and Collector of Taxes is responsible for the timely billing and collection of a large portion of the City's operating revenues. This requires the issuance of approximately 210,000 billings annually. The Department also functions as the disbursing agent for the City for payroll and vendor checks, in which an excess of 100,000 checks are issued annually.

- **Treasurer:**

The Treasurer is responsible for all cash management activities for the City of Haverhill. Another function of the Treasurer is the investment of all City funds and disbursement of all accounts payable and payroll. Enforcing the collection of delinquent property taxes and special assessments is also the responsibility of the Treasurer.

- **Tax Collector:**

The Collector issues and collects all bills as well as records, posts and updates all accounts daily. The Collector's Office also enforces all laws pertaining to collections, as required by State and local laws and regulations.

Assessor's Office

Statement:

The Assessing Department provides fiscal stability by ensuring that the City's personal and real property tax base is promptly, fairly, and equitably evaluated and classified. The Assessing Department determines fair market value of all property for purposes of taxation, assesses property taxes and administers motor vehicle excise taxes in a fair and efficient manner.

Purchasing

Statement:

The Purchasing Department procures supplies, services, and capital equipment for all City departments following all applicable state laws and city ordinances. This office ensures that procurement is completed in a manner that ensures open and fair competition, with the final goal being that the requesting department receives the needed item(s) or service(s) at the lowest possible cost consistent with expected delivery and quality requirements.

Information Technology Department

Statement:

The Information Technology Department is an internal services division of the City of Haverhill created specifically to assist all other departments and divisions by supporting all computer systems and providing technical assistance as needed.

The Information Technology Department is responsible for evaluating, recommending, purchasing, installing and supporting all of the City's automated systems. The Department currently supports more than 150 personal computer systems, seven network file servers, and over 100 different software applications that are part of the City's overall wide area network.

Statement:

The Haverhill Police Department is comprised of dedicated professional police officers who are committed to providing citizens with the very best possible service. The primary responsibility of this Department is to protect the public safety. The Department pursues this through enforcement of all laws and by preventing, responding to and investigating criminal activity.

To carry forward this mission, The department works closely with neighborhood groups, schools, churches, social service agencies, other City departments, and other law enforcement agencies.

Fire

Statement:

The Haverhill Fire Department is a public safety organization that strives to protect all of the people who live and work in and visit our City. The Department pursues this mission through fire prevention, public education, and emergency response. The department also provides many services beyond firefighting, including building inspections, code enforcement, building plan review, fire investigations, student and elder fire education, fire extinguisher training for businesses, emergency medical response, water and ice rescue, motor vehicle extrication and hazardous materials response.

Statement:

The Haverhill Highway and Park & Tree Department, in conjunction with the City's recycling operation, is responsible for a great number of duties, ranging from the protection of the public safety to open space preservation and management. The Department is also responsible for the construction and maintenance of roads and rights-of-way. The department also manages leaf and brush drop-off with a full service recycling area.

The Department's primary responsibility to public safety is to maintain a safe passageway throughout the City for motor and emergency vehicles and school buses on more than 464 lane miles of roadway.

Conservation Commission

Statement:

The Haverhill Conservation Department is a division of the City's Office of Economic Development and Planning. The Department is also the home of the Haverhill Conservation Commission.

The City of Haverhill established its Conservation Commission at the beginning of the 1970's for the promotion and development of its natural resources and for the protection of its watershed resources. The Commission is empowered to administer and enforce state laws and regulations associated with the Massachusetts Wetlands Protection Act, Rivers Protection Act, and Stormwater Management Policy, as well as the City's wetlands protection ordinance. The Commission takes an active role in advising other municipal departments, boards, and committees on conservation issues relating to their areas of responsibility. Thus, the Commission serves the community in regulatory, planning, and advisory capacities.

The Haverhill Conservation Officer serves the public by providing information. The Officer also provides remedial police response to issues involving hunting, fishing, trapping, watershed and natural resource protection, A.T.V's, boating, problem wildlife, illegal dumping, or any other accidental or intentional acts that result in a threat to our natural resources or public health and safety.

Health and Inspectional Services

Statement:

The City of Haverhill Health & Inspectional Services Department is responsible for the enforcement of all federal, state and local laws and regulations pertaining to building, wiring, plumbing, gas, health and environmental issues. The Department's ultimate responsibility is to protect the public health and assure that we live in a safe and environmentally sound community.

Economic Development

General Goals:

- Expand our economic base through sustained economic development efforts.
- Secure new businesses and industries for Haverhill with an emphasis on meaningful job creation and significant advancement of the commercial and industrial tax base.
- Plan for the growth opportunities of the future in order to ensure a high quality of life in Haverhill.

The City of Haverhill's Economic Development and Planning Office provides the framework, leadership and action plan for this effort. The department's primary objectives is the proper implementation of the master plan as it relates to land use policies and zoning bylaws, support for industrial and economic development task forces and commissions, and the strengthening of efforts to bolster and promote tourism.

Special attention is given by this department to the solicitation and coordination of federal and state grants.

Community Development

General Goals:

The primary objective of the Community Development Block Grant (CDBG) program is the development of viable urban communities by providing decent housing and a suitable living environment and by expanding economic opportunities. The goals and funding are principally to benefit low-moderate income persons.

Entitlement funds are provided to the City on an annual basis by the U.S. Department of Housing and Urban Development (HUD). Under both statute (Public Law 93-383, as amended) and regulation (24 CFR 570), the CDBG program gives maximum feasible priority to activities which will carry out one of three broad national objectives: (1) benefiting low to moderate income persons, (2) aiding in the prevention or elimination of slums and blight, or (3) meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available to meet such needs.

Statement:

The mission of Human Services, through its various departments, is to provide educational and innovative programming and services to the citizens of Haverhill while enhancing their quality of life.

Citizens Center

The Citizens Center is a multi-purpose facility that houses many departments in the Human Services Division. Primarily used during the day for Council on Aging activities, this facility is rented out to public and private groups during the evenings and weekends. The facility includes office space, two conference rooms, a kitchen and cafeteria, a ceramics room, billiards room, exercise room, dark room, woodworking shop, and a computer lab.

Recreation:

The mission of the Parks and Recreation Department is to provide recreational opportunities to all citizens of the City of Haverhill. The Department works to provide a well-balanced selection of programs for the community and is responsible for general oversight of recreational facilities.

Youth:

The mission of the Haverhill Youth Center is to provide Haverhill Youth with a supervised drop-in center and introduce them to positive role models. The Center also provides youth with opportunities to contribute to their community, and opportunities to become involved in activities, events and programs that otherwise might not be possible.

Veterans Services

Senior Services:

The Council On Aging (COA) is the municipal agency that is mandated as the focal point for access to services and programs for the City's elderly residents (60 years old and older). Created under Chapter 495 of Massachusetts General Laws, Acts of 1956, and established by City Codes 4-2 in 1964, the COA's mission is to provide services designed to improve the quality of life for Haverhill residents who are 60 years of age or older.

The Department offers a variety of programs and services for our elderly residents that are designed to help them remain independent, stay healthy, keep fit and remain actively involved in our community. A Senior Identification Card, available free of charge at the COA Info and Referral Office, is required in order to participate in many of these programs and services.

Public Library

Statement:

The mission of the Haverhill Public Library is to serve the cultural, social, and community needs of a diverse population by providing global access to informational, educational, and recreational resources. The library fulfills this mission in an enthusiastic and professional manner while maintaining the respect and dignity of its staff and patrons with excellence and superior quality of service.

Vision Statement

The Haverhill Public Library will be the recognized source of knowledge and information, the place to gather and discuss, the encourager of reading, and the partner in cooperation with the city, schools and organizations. We will be the gateway to life-long learning, offering a full spectrum of services, materials and programming.

Values Statement

The Haverhill Public Library - its Board of Trustees, staff and volunteers - is committed to the following values. We value the library as a public forum: it is a community facility for open communication of ideas and information; its collection, displays, programs and services reflect an array of opinions and viewpoints.

We value our customers by responding to them with equal, respectful, accurate and friendly service to all.

We value reading and learning and promote both for all ages.

We value full and equal access to information, the building, its services and its programs.

We value the collection of and accessibility to information in all formats: print, electronic, audio and video.

We value the community by being active participants in it, endeavoring to enhance the quality of community life.

We value the privacy of our users by keeping their transactions strictly confidential.

BONDED DEBT

This allotment covers the cost of the principal and interest payments of the City's bonded debt with the exception of the Wastewater and Water self-supporting funds. Appropriation for this debt appears in the budget of each department.

General Debt Limit. Under Massachusetts's statutes, the General Debt Limit of the City of Haverhill consists of a Normal Debt Limit and a Double Debt Limit. The Normal Debt Limit of a City is five percent of the valuation of taxable property. The City can authorize debt up to this amount (currently \$188,350,585) without State approval. The City can authorize debt up to twice this amount (Double Debt Limit) with the approval of the State.

There are many categories of general obligation debt that are exempt from and do not count against the General Debt Limit. Among others, these exempt categories include revenue anticipation notes and grant anticipation notes, emergency loans, loans exempted by special laws, certain school bonds, sewer project bonds and solid waste and solid waste disposal facility bonds (as approved by the State), and, subject to special debt limits, bonds for water, housing, urban renewal and economic development (subject to various debt limits) and electric and gas (subject to a separate limit to the General Debt Limit, inducing the same doubling provision). Industrial revenue bonds, electric revenue bonds and water pollution abatement revenue bonds are not subject to these debt limits. The General Debt Limit and the special debt limit for water bonds apply at the time the debt is authorized. The other special debt limits generally apply at the time the debt is incurred.

Communities have four basic ways to finance capital projects: pay-as-you-go financing, debt financing, public private ventures, and intergovernmental financing (such as the SRF's low interest loan/grant program). Over reliance on any one of these options can be risky to a local government's fiscal health. It can also restrict the municipality's ability to respond to changes in economic and fiscal conditions.

Authorization of General Obligation Debt. Under the General Laws, bonds and notes of a City are generally authorized by a two-thirds majority vote of the City Council. Provision is made for a referendum of voters for any debt proposal whose cost would be excluded from Proposition 2 ½ taxation limits. Borrowing for certain purposes also requires administrative approval from the Commonwealth.

Temporary loans in anticipation of current revenues, grants and other purposes can be made without local legislative approval.

Communities have four basic ways to finance capital projects: pay-as-you-go financing, debt financing, public private ventures, and intergovernmental financing (such as the SRF's low interest loan/grant program). Over reliance on any one of these options can be risky to a local government's fiscal health. It can also restrict the municipality's ability to respond to changes in economic and fiscal conditions.

Types of Obligations. *General Obligations.* Under Massachusetts's statutes, the City is authorized to issue general obligation indebtedness of the following types:

Serial Bonds and Notes. These are generally required to be payable in equal or diminishing annual principal amounts beginning no later than the end of the next fiscal year commencing after the date of issue, and ending within the terms permitted by law. Level debt service is permitted for bonds or notes issued for certain purposes, and for those projects for which debt service has been exempted from property tax limitations. The maximum terms vary from one year to 40 years, depending on the purpose of the issue. Most of the purposes are capital projects. Bonds may be made callable and redeemed prior to their maturity, and a redemption premium may be paid. Refunding bonds or notes may be issued subject to the maximum terms measured from the date of the original bonds or notes. Serial bonds may be issued as "qualified bonds" with the approval of the State, subject to such conditions and limitations (including restrictions on future indebtedness) as may be required by the Board. The State Treasurer is required to pay the debt service on "qualified bonds" and thereafter to withhold the amount of the debt service from state aid or other state payments. Any resulting administrative costs and any loss of interest income to the Commonwealth are to be assessed upon the City.

Bond Anticipation Notes. These generally must mature within two years of their original dates of issuance, but may be refunded from time to time for a period not to exceed five years from their original dates of issuance, provided that (except for notes issued for certain school projects that have been approved for State school construction aid) for each year that the notes are refunded beyond the second year, they must be paid in part from revenue funds in an amount at least equal to the minimum annual payment that would have been required if the bonds had been issued at the end of the second year. The maximum term of bonds issued to refund bond anticipation notes is measured from the date of the original issue of the notes, except for notes issued for such State-aided school construction projects.

Tax Anticipation Notes. Tax Anticipation Notes may be issued to meet current expenses in anticipation of taxes and other revenues. They must mature within one year but, if payable in less than one year, may be refunded from time to time up to one year from the original date of issue.

Grant Anticipation Notes. Grant Anticipation Notes may be issued for temporary financing in anticipation of federal grants and state and county reimbursements. They must generally mature within two years, but may be refunded from time to time as long as the municipality remains entitled to the grant or reimbursement.

Bond Anticipation Notes. These generally must mature within two years of their original dates of issuance, but may be refunded from time to time for a period not to exceed five years from their original dates of issuance, provided that (except for notes issued for certain school projects that have been approved for state school construction aid) for each year that the notes are refunded beyond the second year, they must be paid in part from revenue funds in an amount at least equal to the minimum annual payment that would have been required if the bonds had been issued at the end of the second year. The maximum term of bonds issued to refund bond anticipation notes is measured from the date of the original issue of the notes, except for notes issued for such state-aided school construction projects.

Tax Anticipation Notes. Tax Anticipation Notes are issued to meet current expenses in anticipation of taxes and other revenues. They must mature within one year but, if payable in less than one year, may be refunded from time to time up to one year from the original date of issue.

Grant Anticipation Notes. Grant Anticipation Notes are issued for temporary financing in anticipation of federal grants and state and county reimbursements. They must -generally mature within two years, but may be refunded from time to time as long, as the municipality remains entitled to the grant or reimbursement.

Revenue Bonds. Cities and towns may issue revenue bonds for solid waste disposal facilities and for projects financed under the Commonwealth's water pollution abatement revolving- loan program. In addition, cities and towns having electric departments may issue revenue bonds, and notes in anticipation of such bonds, subject to the approval of the state Department of Public Utilities. The City does not have an electric department, and has not authorized any other revenue bonds.

Employee Benefits

Health Insurance

Pursuant to MGL Chapter 32B, as a benefit of employment, any active, permanent employee of the City who works in excess of nineteen (19) hours per week is eligible for group health insurance coverage also all retirees are offered insurance.

The City offers the choice of two health plans Blue Care Elect and HMO Blue. The City also offers Medex to its retired employees.

The City is moving all insurance plans to a self funding basis administered by Blue Cross. The City also retains Cook & Co. as consultant to review the performance of our health insurance plans and provide assistance relative to cost containment.

The plans and enrolment estimates are in the tables below, the first table reflects all employees the second table is for General Fund only:

Unemployment

The City is designated as a "reimbursable employer" under the Department of Employment and Training Regulations. The DET pays all claims directly to the employees and is reimbursed by the City on a quarterly basis.

Retirement

Under Massachusetts General Laws Chapter 32 the City is required to enroll in our retirement system all employees who work in excess of nineteen (19) hours per week. The City retirement board is responsible for administrating the assets of the fund.

Workmen's Compensation

The City carries Workmen's Compensation insurance through a self-insurance program.

The City carries its liability program through the agency of James Page Insurance. James Page Insurance places the coverage through various companies on a competitive basis. The current breakdown is in the table below:

Account		FY04 Actual	FY05 Y-T-D	FY05 Budget	FY06 Request	FY06 Mayor	Mayor Change	Budget Change

Cherry Sheet Assessments

CHERRY SHEET ASSESSMENTS

Chapter 59, Section 21 of the Massachusetts General Laws requires the Commissioner of Revenue to provide municipalities and regional school districts with advance estimates of state and county assessments and charges. Local assessors are required to use these figures in determining the local property tax rate.

RETIRED TEACHER HEALTH INSURANCE

This assessment is levied to reimburse the Commonwealth for the costs of providing a life and health insurance plans for retired municipal teachers. Each participating municipality is assessed for the governmental share of health and life insurance premiums paid on behalf of its teacher retirees by the state. For teachers retired prior to July 1, 1994 the state pays 90% of the total premium; the retiree's co-payment is 10%. Teachers retired after July 1, 1994 the premium split is 85% employer 15% employee. A proportionate share of administrative expenses is also assessed to each municipality.

MOSQUITO CONTROL PROJECTS

There are eight mosquito control districts in Massachusetts whose costs are apportioned to member municipalities on the Cherry Sheet. All mosquito control projects are assessed their proportional expenses for the administration of the state Reclamation Board.

AIR POLLUTION CONTROL

The Air Pollution Commission supervises six districts statewide. The Commission is empowered through the Office of the Governor and has a mandate to control air pollution through the enforcement of Air Pollution Control Acts and Safety Standards.

REGIONAL TRANSPORTATION AUTHORITY

To assess municipalities in order to provide for a system of regional transportation authorities to develop, finance, and contract for the operation of transportation facilities and service outside the Metropolitan Boston area. Between 25% and 50% of the total net cost of service of each regional transit authority is assessed to its member municipalities in proportion to the estimated cost of operating routes through those municipalities. A net operating deficit for each regional transit authority is calculated as the difference between the revenue sources (fares, advertisements and federal assistance) and the operating costs. This deficit is funded through assessments to member municipalities and state contract assistance

SPECIAL EDUCATION ASSESSMENT

This assessment is levied to reimburse the Commonwealth for providing special needs education to children enrolled in state hospital schools or private institutions, whose placements were made before 1975.

REGISTRY OF MOTOR VEHICLES-HOLD PROGRAM

The City has implemented a provision of Massachusetts General Laws Chapter 90 which enables the City to request the State Registry of Motor Vehicles not to renew the license and registration of an operator/owner of a motor vehicle that has two or more outstanding parking tickets. This provision is enacted after the motorist has failed to pay the parking tickets and had an opportunity for a hearing. This program has resulted in a significant decrease in the number of delinquent payments.

CHARTER SCHOOL CHARGES

To assess the sending municipality or regional school district for pupils attending charter schools. Charter school tuition charges are assessed against the sending district and paid to the charter school district.

SCHOOL CHOICE

To assess the sending municipality or regional school district for pupils attending another school district under school choice. School choice tuition charges are assessed against the sending district and paid to the receiving school district.

Miscellaneous and Transfers

BUDGET RESERVE

In accordance with Chapter 40 section 5A an amount is set aside annually within the budget of a city (not to exceed 3% of the tax levy for the preceding year) to provide a funding source for extraordinary or unforeseen expenditures.

STABILIZATION FUND

Under MGL Chapter 40 section 5B communities may appropriate into this fund in any year an amount not to exceed ten percent of the prior year's tax levy or a larger amount with the approval of the Emergency Finance Board. The aggregate of the stabilization fund shall not exceed ten percent of the community's equalized value, and any interest shall be added to and become a part of the fund. A two-thirds vote of city council is required to appropriate money from the stabilization fund. Appropriation can be for any lawful purpose. This is \$1.2 million in the transfer to trusts

Glossary of Terms

Abatement. A complete or partial cancellation of a tax levy imposed by a governmental unit. Administered by the local board of assessors.

Accounting System. A system of financial recordkeeping, which record, classify and report information on the financial status and operation of a governmental unit or any of its funds, account groups, and organizational components.

Adopted Budget. The resulting budget that has been approved by the Town Meeting or City Council.

Annual Budget. An estimate of expenditures for specific purposes during the fiscal year (July 1-June 30) and the proposed means (estimated revenues) for financing those activities.

Appropriation An authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and as to the time when it may be expended. Only town meeting or city council can authorize money appropriated for one purpose to be used for another. Any amount that is appropriated may be encumbered (see encumbrance). Any part of an annual operating appropriation not spent or encumbered by June 30 automatically reverts to the undesignated fund balance that may result in free cash. If departments know of remaining unpaid bills at the close of the fiscal year and properly notify the accountant/auditor (MGL Ch. 41 § 58), the departmental appropriation is encumbered to extend the annual spending authorization until such time that the bill is paid or it is decided not to spend the funds. If these encumbrances are not acted on within a year, the accountant generally notifies the department and closes them out. A special purpose appropriation, on the other hand, may carry forward from year to year until spent for the designated purpose or transferred by town meeting/city council vote to another account.

Arbitrage. Investing funds borrowed at a lower interest cost in investments providing a higher rate of return.

Assessed Valuation. A valuation set upon real or personal property by the local board of assessors as a basis for levying taxes.

Audit. A study of the City's accounting system to ensure that financial records are accurate and in compliance with all legal requirements for handling of public funds, including state law and local charter.

Balanced Budget. A budget in which receipts are greater than (or equal to) expenditures. A requirement for all Massachusetts cities and towns.

Bond Anticipation Notes. Notes issued in anticipation of later issuance of bonds, usually payable from the proceeds of the sale of the bonds or renewal notes.

Bond Rating (Municipal) A credit rating to help investors determine the risk of losing money on a given fixed-income investment. Agencies specializing in municipal bonds assign a rating, designated by letters or a combination of letters and numerals, based on their opinion of the future ability, legal obligation, and willingness of a bond issuer to make timely debt service payments.

Budget (Operating). A plan of financial operation embodying an estimate of proposed expenditures for a given time period and the proposed means of financing.

Budget Calendar. The schedule of key dates or milestones which a government follows in the preparation and adoption of the budget.

Budget Message A statement by the municipality's policy makers summarizing the plans and policies contained in the budget report, including an explanation of the principal budget items, an outline of the municipality's experience during the past year and its financial status at the time of the message, and recommendations regarding financial policy for the coming fiscal year.

Capital Improvements Program A comprehensive plan for planning a community's capital expenditures. It coordinates community planning, fiscal capacity and physical development. While all of the community's needs should be identified in the program, there is a set of criteria that prioritizes the expenditures. The capital program is a plan for capital expenditures that usually extends at least five years beyond the capital budget.

Chapter 90 Highway Funds The state legislature authorizes and issues transportation capital bonds every few years. In each Transportation Bond, funds are apportioned to communities based on a formula under the provisions of MGL Ch. 90 § 34, hence the term Chapter 90 funds. The Chapter 90 highway formula is comprised of three variables: local road mileage (58.33 percent) as certified by the Massachusetts Highway Department (MHD), employment figures (20.83 percent) from the Department of Employment and Training (DET), and population estimates (20.83 percent) from the US Census Bureau. Under this formula, those communities with a larger number of road miles receive proportionately more aid than those with fewer road miles. These funds are reimbursed to communities based on certified expenditure reports submitted to MHD.

Cherry Sheets Named for the cherry colored paper on which they were originally printed, the Cherry Sheets are the official notification of the next fiscal year's state aid and assessments to communities and regional school districts from the Commissioner of Revenue. State aid to municipalities and regional school districts consists of two major types -- distributions and reimbursements. Distributions provide funds based on formulas while reimbursements provide funds for costs incurred during a prior period for certain programs or services. In addition, communities may receive "offset items" that must be spent on specific programs. Cherry Sheet Assessments are advance estimates of state assessments and charges. Local assessors are required to use these figures in setting the local tax rate. Because these figures are estimates, it should be noted that based on filing requirements and/or actual information, the final aid or assessment may differ.

Debt Limit The maximum amount of debt that a municipality may have authorized for qualified purposes under state law.

Debt Service The cost, usually stated in annual terms, of the principal repayment and interest of any particular issue.

Deficit The excess of expenditures over revenues during an accounting period. Also refers to the excess of the liabilities of a fund over its assets.

Department. A principal, functional and administrative entity created by the Manager in accordance with the Charter to carry out specified public services.

Encumbrance. Obligations in the form of purchase orders and contracts which are chargeable to an appropriation is reserved. They cease to be encumbrances when paid or when an actual liability is set up.

Enterprise Funds An accounting mechanism that allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy, if any. With an enterprise fund, all costs of service delivery-- direct, indirect, and capital costs--are identified. This allows the community to recover total service costs through user fees if it chooses. Enterprise accounting also enables communities to reserve the "surplus" or retained earnings generated by the operation of the enterprise rather than closing it out to the general fund at year-end. According to MGL Ch. 44 § 53F½, the services that may be treated as enterprises include, but are not limited to, water, sewer, hospital, and airport services.

Equalized Valuations (EQVs) The determination of an estimate of the FFCV of all property in the Commonwealth as of a certain taxable date. EQVs have historically been used as a variable in distributing some state aid accounts and for determining county assessments and other costs. The Commissioner of Revenue, in accordance with MGL Ch. 58 § 10C, is charged with the responsibility of biannually determining an equalized valuation for each city and town in the Commonwealth.

Expenditures. The amount of money, cash or checks, actually paid or obligated for payment from the treasury.

Fiscal Year Since 1974, the Commonwealth and municipalities have operated on a budget cycle that begins July 1 and ends June 30. The designation of the fiscal year is that of the calendar year in which the fiscal year ends. For example, the 2000 fiscal year is July 1, 1999 to June 30, 2000 and is usually written as FY2000. Since 1976, the federal government has had a fiscal year that begins October 1 and ends September 30.

Free Cash (Also Budgetary Fund Balance) Unrestricted funds from operations of the previous fiscal year that are certified by the Director of Accounts as available for appropriation. Remaining funds include unexpended free cash from the previous year, receipts in excess of estimates shown on the tax recapitulation sheet, and unspent amounts in budget line-items. Unpaid property taxes and certain deficits reduce the amount that can be certified as free cash. The calculation of free cash is based on the balance sheet as of June 30, which is submitted by the community's auditor, accountant, or comptroller. A community should maintain a free cash balance to provide a hedge against unforeseen expenditures and to ensure there will be an adequate reserve to prevent sharp fluctuations in the tax rate. Maintenance of an adequate free cash level is not a luxury but a necessary component of sound local fiscal management. Credit rating agencies and other members of the financial community expect municipalities to maintain free cash reserves and make judgments regarding a community's fiscal stability, in part, on the basis of free cash.

Full and Fair Cash Value (FFCV) Fair cash value has been defined by the Supreme Judicial Court as "fair market value, which is the price an owner willing but not under compulsion to sell ought to receive from one willing but not under compulsion to buy. It means the highest price that a normal purchaser not under peculiar compulsion will pay at the time, and cannot exceed the sum that the owner after reasonable effort could obtain for his property. A valuation limited to what the property is worth to the purchaser is not market value. The fair cash value is the value the property would have on January first of any taxable year in the hands of any owner, including the present owner" (Boston Gas Co. v. Assessors of Boston, 334 Mass. 549, 566 (1956)).

Fund An accounting entity with a self-balancing set of accounts that is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with specific regulations, restrictions, or limitations.

Fund Accounting Organizing the financial records of a municipality into multiple funds. A fund is a distinct entity within the municipal government in which financial resources and activity (assets, liabilities, fund balances, revenues, and expenditures) are accounted for independently in accordance with specific regulations, restrictions or limitations. Examples of funds include the general fund and enterprise funds. Communities whose accounting records are organized according to the Uniform Municipal Accounting System (UMAS) use multiple funds.

General Fund The fund used to account for most financial resources and activities governed by the normal town meeting/city council appropriation process.

General Obligation Bonds Bonds issued by a municipality that are backed by the full faith and credit of its taxing authority.

Grant. A contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal government. Grants are usually made for specific purposes.

Interfund Transactions. Payments from one administrative budget fund to another or from one trust fund to another, which result in the recording of a receipt and an expenditure.

Levy -- The amount a community raises through the property tax. The levy can be any amount up to the levy limit.

Levy Ceiling -- The maximum levy assessed on real and personal property may not exceed 2 ½ percent of the total full and fair cash value of all taxable property (MGL Ch. 59 § 21C). Property taxes levied may exceed this limit only if the community passes a capital exclusion, a debt exclusion, or a special exclusion.

Levy Limit The maximum amount a community can levy in a given year. The limit can grow each year by 2 ½ percent of the prior year's levy limit plus new growth and any overrides. (MGL Ch. 59 § 21C (f & g)). The levy limit can exceed the levy ceiling only if the community passes a capital expenditure exclusion, debt exclusion, or special exclusion.

Net School Spending (NSS) School budget and municipal budget amounts attributable to education, excluding long-term debt service, student transportation, school lunches and certain other specified school expenditures. A community's NSS funding must equal or exceed the NSS Requirement established annually by the Department of Education (DOE) (Education Reform Act of 1993).

New Growth The taxing capacity added by new construction and other increases in the property tax base. New growth is calculated by multiplying all increases in value which are not the result of revaluation by the tax rate of the previous fiscal year. For example, FY2003 new growth is determined by multiplying the value on January 1, 2002 by the FY2002 tax rate. Assessors must submit documentation of new growth to the BLA annually before setting the tax rate

Operating Budget A plan of proposed expenditures for personnel, supplies, and other expenses for the coming fiscal year.

Overlay (Overlay Reserve or Allowance for Abatements and Exemptions) An account established annually to fund anticipated property tax abatements, exemptions and uncollected taxes in that year. The overlay reserve is not established by the normal appropriation process, but rather is raised on the tax rate recapitulation sheet.

Override A vote by a community at an election to permanently increase the levy limit. An override vote may increase the levy limit no higher than the levy ceiling. The override question on the election ballot must state a purpose for the override and the dollar amount. See underride.

Override Capacity The difference between a community's levy ceiling and its levy limit. It is the maximum amount by which a community may override its levy limit.

Personal Property Tax Movable items not permanently affixed to, or part of the real estate. It is assessed separately from real estate to certain businesses, public utilities, and owners of homes that are not their primary residences.

Proposition 2 ½. A law which became effective on December 4, 1980. The two main components of the tax law relating to property taxes are: 1) the tax levy cannot exceed 2 ½ % of the full and fair cash value, and 2) for cities and towns at or below the above limit, the tax levy cannot exceed the maximum tax levy allowed for the prior by more than 2 ½ % (except in cases of property added to the tax rolls and for valuation increases of at least 50% other than as part of a general revaluation).

Purchase Order. A document issued to authorize a vendor or vendors to deliver specified merchandise or render a specified service for a stated estimated price. Outstanding purchase orders are called encumbrances .

Rating Agencies. This term usually refers to Moody's Investors Service and Standard and Poor's Corporation. These services are the two major agencies which issue credit ratings on municipal bonds.

Registered Bonds. Bonds registered on the books of the issuer as to ownership; the transfer of ownership must also be recorded on the books of the issuer. Recent changes in federal tax laws mandate that all municipal bonds be registered if their tax exempt status is to be retained.

Reserve Fund An amount set aside annually within the budget of a city (not to exceed 3% of the tax levy for the preceding year) or town (not to exceed 5% of the tax levy for the preceding year) to provide a funding source for extraordinary or unforeseen expenditures. In a town, the finance committee can authorize transfers from this fund for "extraordinary or unforeseen" expenditures. Other uses of the fund require budgetary transfers by town meeting. In a city, transfers from this fund may be voted by the city council upon recommendation of the mayor.

Revaluation The assessors of each community are responsible for developing a reasonable and realistic program to achieve the fair cash valuation of property in accordance with constitutional and statutory requirements. The nature and extent of that program will depend on the assessors' analysis and

consideration of many factors, including, but not limited to, the status of the existing valuation system, the results of an in-depth sales ratio study, and the accuracy of existing property record information. Every three years, assessors must submit property values to the DOR for certification. Assessors must also maintain current values in the years between certifications so that each taxpayer in the community pays his or her share of the cost of local government in proportion to the value of his property.

Revenues All monies received by a governmental unit from any source.

Revolving Fund Allows a community to raise revenues from a specific service and use those revenues without appropriation to support the service. For departmental revolving funds, MGL Ch. 44 § 53E½ stipulates that each fund must be re-authorized each year at annual town meeting or by city council action, and that a limit on the total amount that may be spent from each fund must be established at that time. The aggregate of all revolving funds may not exceed ten percent of the amount raised by taxation by the city or town in the most recent fiscal year, and no more than one percent of the amount raised by taxation may be administered by a single fund. Wages or salaries for full-time employees may be paid from the revolving fund only if the fund is also charged for all associated fringe benefits. Revolving funds for other programs as provided by statute are still allowed, and a departmental revolving fund may be implemented in addition to or in conjunction with other existing statutory revolving funds, provided that the departmental revolving fund does not conflict with provisions of other revolving funds.

Stabilization Fund A fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose. (MGL Ch. 40 § 5B). Communities may appropriate into this fund in any year an amount not to exceed ten percent of the prior year's tax levy or a larger amount with the approval of the Emergency Finance Board. The aggregate of the stabilization fund shall not exceed ten percent of the community's equalized value, and any interest shall be added to and become a part of the fund. A two-thirds vote of town meeting or city council is required to appropriate money from the stabilization fund.

Tax Anticipation Notes. Notes issued in anticipation of taxes, which are retired from taxes collected.

Tax Rate. The amount of tax stated in terms of a unit of the tax base. Prior to a 1978 amendment to the Massachusetts Constitution, a single tax rate applied to all of the taxable real and personal property in a City or town. The 1978 amendment allowed the legislature to create three classes of taxable property:

1) residential real property, 2) open space land, and 3) all other (commercial, industrial, and personal property). Within limits, cities and towns are given the option of determining the share of the levy to be borne by the different classes of property. The share borne by residential real property must be at least 65% of the full rate. The share of commercial, industrial, and personal property must not exceed 150% of the full rate. Property may not be classified until the State Department of Revenue has certified that all property has been assessed at its full value.

Tax Rate Recapitulation Sheet (also Recap Sheet) -- A document submitted by a city or town to the DOR in order to set a property tax rate. The recap sheet shows all estimated revenues and actual appropriations that affect the property tax rate. The recap sheet should be submitted to the DOR by September 1 (in order to issue the first-half semiannual property tax bills before October 1) or by December 1 (in order to issue the third quarterly property tax bills before January 1).

Tax Title. A collection procedure that secures a lien on real property and protects the municipality's right to payment of overdue property taxes. Without following this procedure, the lien on real property expires if five years elapse from the January 1 assessment date and the property has been transferred to another owner. If amounts remain outstanding on the property after issuing a demand for overdue property taxes and after publishing a notice of tax taking, the collector may take the property for the city or town. After properly recording the instrument of taking, the collector transfers responsibility for collecting the overdue amounts to the treasurer.

Underride. A vote by a community to permanently decrease the tax levy limit. As such, it is the exact opposite of an override.

Unreserved Fund Balance (Surplus Revenue Account). The amount by which cash, accounts receivable, and other assets exceed liabilities and restricted reserves. It's akin to a "stockholders' equity" account on a corporate balance sheet. It is not, however, available for appropriation in full because a portion of the assets listed as "accounts receivable" may be taxes receivable and uncollected. See free cash.

Valuation (100%). The legal requirement that a community's assessed value on property must be the same as its market or full and fair cash value.

Warrant. An authorization for an action. For example, a town meeting warrant establishes the matters that may be acted on by that town meeting. A treasury warrant authorizes the treasurer to pay specific bills. The assessors' warrant authorizes the tax collector to collect taxes in the amount and from the persons listed, respectively.

Appropriation Orders

City Council
 City of Haverhill
 Submitted May 17, 2005

Introduced by the Mayor James J. Fiorentini
 an Order Concerning Appropriations for the Fiscal Year Beginning July 1, 2005

Ordered that the following sums, designated as appropriations, are hereby appropriated in the General Fund of the City of Haverhill and further to appropriate the sum of \$250,000 from 'Free Cash'.

	Salaries Appropriation	Expenses Appropriation	Capital Appropriation	Department Totals	State and Other Assessments	Grand Totals
