Mayor Fiorentini Debuts Passport Mobile Parking App

New mobile app makes parking easier in Haverhill

May 12, 2016- Mayor Fiorentini is introducing a new way for people parking in Haverhill to pay for parking. Haverhill has launched Passport, a mobile pay provider for parking and transportation, to all on and off-street parking locations.

The Passport App will make city parking easier by giving drivers an additional option of payment besides cash or swiping a credit card. Using their secure Passport account, drivers can pay from their phone and even extend their parking (up to the maximum allotted time) without walking back to the kiosk.

"We're looking forward to giving our residents and visitors this tech-friendly option for parking payments," said James J. Fiorentini, Mayor of Haverhill, MA. "Utilizing this app gives parkers the flexibility to pay for parking as well as extend their parking stay. Our goal is to make parking convenient and easy to use for our residents and visitors."

The PassportParking app is free to download from the iPhone App Store and Android Google Play. Users can also manage their parking online at ppprk.com.
