## **New Street Sweeper Makes its Move around City Streets**

Today, Mayor James J. Fiorentini announced that the new Elgin Street Sweeper is cleaning our city streets along with 2 older machines. The cost of the new street sweeper was \$165,000. It has an improved 360 degree visibility for the driver, a more powerful broom system to pick up debris in the streets and a filtration system to collect airborne dust while in operation.

Last year, our sweepers picked up over 600 yards of sand and debris from around the city. The 3 sweepers are currently out cleaning the streets Monday through Friday from 7AM until 3PM and Saturday from 7AM until Noon.

Mayor Fiorentini stated:

“Maintaining our streets to keep them free of debris is important to maintain safe roadways.

“The Department of Public Works does a great job sweeping the streets and is committed to maintaining our roadways.

“The new machine supplements the work being done by the older machines and gives us the ability to keep our equipment updated and functional.”
