Honorable James J. Fiorentini, Jr.
President Melinda Barrett
Members of the City Council
Haverhill, MA 01830

Dear City Officials:

Chapter 369 of the Acts of 1982 requires that the decision to shift the property tax burden from one class to another be determined by the City Council and the Mayor after a public hearing is held. At the completion of such a hearing, the City Council shall vote on four separate items in order to establish the tax burdens for each class of property.

1) The Selection of a Residential Factor

The minimum residential factor is .9227%. This factor is calculated at 150%. A vote for a factor of 1 will establish a single tax rate for all classes of property.

Chapter 200 of the Acts of 1988 allows certain communities at local option to shift just as much of the tax burden, (up to 175%), to commercial, industrial and personal properties so as to maintain the most favored residential share since the City's adoption of a classified tax system. In other words, Chapter 200 provides relief for those communities in which the maximum shift results in a residential share that is larger than the prior year's. Our residential share for FY2021 using the CIP share of 150% is 79.9216. The chosen residential share used last year was 79.7470; therefore, our community **DOES** qualify for the provisions of this legislation.

2) Open Space

The establishment of this class of property is the responsibility of the Assessors. Given the legal description of this class, the Assessors have determined that there are no parcels that meet this description.

ASSESSORS OFFICE – ROOM 115

Phone: 978-374-2316 Fax: 978-374-2319

Assessors@cityofhaverhill.com

3) Residential Exemption

The average residential valuation for Fiscal Year 2021 is \$324,364. This average includes condos, one family, two family three family and apartments as well as 290 mixed use parcels and vacant land.

This exemption would allow a reduction in valuation of each qualifying residential parcel of up to \$64,873. Because the adoption of such a factor is to be borne within the residential class, the net effect of the Residential Exemption is to lower tax bills for all residential property valued less than the average valuation and INCREASE TAX BILLS for all residential property value greater than the average valuation.

Such an exemption is difficult to apply due to the legal requirement that the exemption be applied only to the principal residence of the taxpayer.

(FOR INFORMATION PURPOSES)

The average	SINGLE FAMILY	\$356,446
	CONDO	\$225,823
	TWO FAMILY	\$362,813
	THREE FAMILY	\$433,881
	APARTMENT	\$1,246,487

4) Commercial exemption

This legislation adds an option, the small commercial exemption, to the property tax classification law. Under General Laws Chapter 59, Section 5I, the Mayor, with the approval of the City Council, may now decide annually to exempt up to ten percent of the value of Class 3, Commercial, parcels that are occupied by businesses with an average annual employment of NO more than TEN people at all locations during the previous calendar year, as certified by the Commissioner of the Department of Employment and Training, and valuations of less than a million dollars. Similar to the residential exemption it results in INCREASING property taxes onto other commercial and industrial properties.

This exemption is based on a percentage of an eligible parcel's valuation, rather than a fixed dollar amount. If this exemption is granted our office must determine the eligible parcels, reduce their valuation by the selected percentage and set the tax rate using the reduced value. This exemption will result in a THIRD HIGHER TAX RATE for the Commercial and Industrial classes than for Personal Property.

Assessors@cityofhaverhill.com

The Assessors have reviewed the list from the Commissioner of DET and find that 115 parcels out of 830 (including 227 mixed use) qualify for the exemption.

We estimate that the value of these parcels is \$45,229,300. If the City were to vote for a factor of 163% for CIP class the Commercial/Industrial rate would change from \$25.58 to \$25.82. The AVERAGE qualifying parcel assessed at \$257,261 would have a reduced value of \$247,590. ACTUAL PARCELS range in value from \$2,300.00 to \$19,830,000. There are currently approximately 11 communities out of 351 in the State that have adopted this exemption.

The new growth is broken down as follows:

RESIDENTIAL TOTALS	40,902,733 = 42%
COMMERCIAL TOTALS	8,347,519 = 8%
INDUSTRIAL TOTALS	10,395,486 = 11%
PERSONAL PROPERTY	38,728,881 = 39%
	<hr/>
	98,374,619 = 100%

We trust that this information will assist City Officials in the decision-making process.

Very truly yours,

Melinda Barrett, President
Haverhill City Council
Haverhill, MA 01830

Dear President Barrett,

This letter to the City Council is for the purpose of answering some frequently asked questions regarding the upcoming Classification Hearing. I have prepared a few spreadsheets that will help explain the various tax burdens using the different shift percentages and the *increases/decreases* over comparable **FY 2020** tax bills.

For example, the *average* SINGLE FAMILY property assessed at **\$356,446** using last year's shift of 163% will have a tax bill of \$4,808 for FY 2021. This is an *increase* of \$111.00 over last year. At a shift of 150% the tax bill will be \$4,915.00, an *increase* of \$217.00. A shift to 165% equals a \$4,791.00 tax bill. Every 1% change to the shift results in a difference of about \$9.00.

For example, the *average* RESIDENTIAL property, not including mixed use, assessed at \$324,364 using the shift of 163% will have a tax bill of \$4,410.00 for FY 2021, an *increase* of \$144.00 over FY 2020. A shift of 150% results in a tax bill of \$4,473.00 or an *increase* of \$241.00. A shift to 165% equals a \$4,395.00 tax bill. When broken down further, every 1% change to the shift results in a *difference* of approximately \$8.00 on the bill.

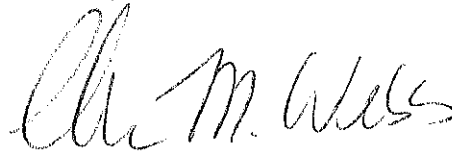

Conversely, the *average* COMMERCIAL property, not including mixed use, assessed at \$662,845 using last year's shift of 163% will have a tax bill of \$16,147. This is a *increase* of \$24.00 as compared to FY 2020. Reducing the shift to 150% results in tax bill of \$14,860.00 a *decrease* of \$1,311.00. At 165% the tax bill will be \$16,346.00. This represents an *increase* of \$175.00, or approximately \$100.00 for every 1% change to the shift.

The *average* INDUSTRIAL property, not including mixed use, is assessed at \$1,086,057.00. At a 163% ratio the taxes will be \$26,456, a decrease of \$684.00 from last year. At 150% the taxes will change to \$24,349.00. This is a *decrease* of \$2,791.00. A shift to 165% equals a \$26,782 tax bill. Again, the 1% breakdown reflects an amount of \$165.00 on the 2020 tax bill.

See the attached spreadsheets for more detailed examples.

Many other communities similar in size, demographics and geographic location as Haverhill shift their tax burdens including, Lawrence @ 175%, North Andover @ 130%, Lynn @ 175%, Lowell @ 175%, Peabody @ 175%, Methuen @ 175%, Beverly 171%, Salem @ 167%, Andover @ 157.5%, Amesbury and Newburyport do not classify and have just one tax rate. The maximum FY 2020 classification shift Haverhill is allowed is 175%.

Sincerely,

City of Haverhill

FY 2021 Classification Hearing
Tuesday, November 17, 2020

Presented by the Haverhill
Board of Assessors

Tax Classification FY 2021

- The purpose of this public hearing is to determine how the Tax Levy (Pie) is divided
- Classification does not change the size of the Pie but it can change the percentage share of the Pie
- In other words, the amount of money the City can raise through taxes remains a constant regardless of the percentage shift of the tax burden between the classes

State Mandated Interim Year Update of All Property Values

- Every ***Non Revaluation*** year the Commonwealth requires all municipalities to perform a complete update of all Real and Personal Property values based on the prior calendar year sales and overall market conditions.
- This year, ***FY 2021***, Haverhill's Residential class has increased in value at a greater rate than the Commercial, Industrial & Personal Property (C.I.P) class.
- Due to the fact that the Residential class assessments increased at a greater % rate this year as compared to the C.I.P class, the ***Overall*** C.I.P. share in FY 2021 decreased and the Residential share increased.
- To lessen the burden on residential taxpayers, the city may shift the tax share from one class to another.

RE: Personal Property Tax Exemption for Small Businesses

Dear Madame President and Members of the Haverhill City Council:

Two years ago, the City Council accepted my proposal to adopt the provisions of M.G.L. c. 59, sec. 5, cl. 54, in establishing a small business exemption from the personal property tax.

Over the past two years, that exemption has allowed approximately 900-1,000 of the Mom and Pop businesses in Haverhill to be exempt from paying any personal property tax.

I now propose that we increase that exemption from \$5,000 to \$7,000. This would exempt approximately another 90 businesses.

The order is attached and I recommend approval.

Very truly yours,

James J. Fiorentini

RE: Site Plan Review-Major: Chapter 255 Article XVI WD-F
Ch. 255, sec. 154-171
Owner: Cioto Realty Trust
Applicant: Ernest Cioto, Trustee
Location: 38 Railroad Street, Bradford MA
Parcel ID: 701-630-9

**Brief in Support of Residential Condominium Development at
38 Railroad Street, Bradford Massachusetts**

Pursuant to the Code of the City of Haverhill, Chapter 255 sec. 154-174 (Article XVI Waterfront District), the applicant, Ernest Cioto, wishes to substantially rehabilitate an old dilapidated industrial site on the banks of the Merrimack River in the Bradford section of Haverhill. The petitioner plans to convert the existing industrial building into 48 residential condominiums. The development is located in the Waterfront District Zone F (WD-F), is by-right and is before the City Council as a Site Plan Review Major.

Background

In July 2019, Mr. Cioto submitted a proposal to the City of Haverhill to build 60 Condominiums pursuant to Haverhill Zoning Ordinance Chapter 255 Sections 154-171 (Waterfront District). To address neighborhood concerns, the matter was withdrawn, and meetings were held with the neighbors and City Councilor's to explain the project details, answer questions and all neighbors to express concerns. As a result of the meetings, and the concerns expressed by the neighbors, Mr. Cioto modified the plan, eliminated the request for a

parking easement from the City of Haverhill, and a revised proposal with 54 Condominiums (a 10% reduction) was resubmitted in June 2020. That plan was also withdrawn without prejudice to allow additional time to again reconfigure and redesign the development to further address neighbors' concerns and provide additional details to clarify compliance with the ordinance. Mr. Cioto is submitting the attached revised development plan for 48 Condominiums to the City Council for approval pursuant to Ch. 255, sec. 154-171. The current plan has significant changes from the original plan including a 20% reduction in the number of residential units.

By-Right Site Plan Approval Major
Chapter 255 sec. 154-174 (Article XVI Waterfront District)

As stated earlier this is an application for By-Right, site plan approval major. According to Article XVI of the Haverhill Code, By-Right approval, means that "the standards and criteria which any project permitted in the Waterfront District shall meet under the procedures as set forth in this article. Such approval shall be treated as nondiscretionary and not subject to the standards applicable to special permits under this Zoning Ordinance. See "Table of Uses for the Waterfront District"[1] for a listing of uses permitted in the Waterfront District". The standard for approval set forth in the Haverhill Code for Site Plan Review Major is covered in Chapter 255-170 (C):

By-right plan (site plan review - major) approval.

(1) An application for by-right (site plan review - major) approval shall be reviewed for consistency with the purpose and intent of this article, and such plan review shall be construed as an as-of-right review and approval process.

(2) Plan approval shall be granted where the PAA finds by vote of the City Council that:

(a) The applicant has submitted the required fees and information as set forth in this article.

(b) The project and site plan meet the requirements and standards as set forth in this article or a waiver has been granted therefrom.

(c) Extraordinary adverse potential impacts of the project on nearby properties have been adequately mitigated.

(3) If all of the above requirements are not met, the plan shall not be approved.

The Applicant, in support of his application for Site Plan Approval Major, meets the requirements of Ch. 255-170(C) and is allowed to develop 56 residential units By-Right.

Pursuant to Chapter § 255-164 (F) Density regulations in sub-zone F allow 20 residential units per acre. In addition, a density bonus is allowed pursuant to Chapter § 255-165 (C), which states that, “In Sub-Zone F, a maximum of 40 units per acre shall be permitted when a project proposes to substantially rehabilitate an existing building into residential housing or artist live/work space.” There is an existing building on the site which is being substantially rehabilitated into residential housing and the ordinance specifically uses the word “shall” and not “may” in this case, thereby eliminating discretion in these matters. The plan keeps as much of the existing structure as is practical, including sections of foundation walls, the concrete floor, and brick walls that are within the footprint of the residential buildings. The portions of the building that interfere with the Rail Trail, interfere with parking, or obstruct pedestrian and vehicular traffic are to be removed. Since the development is a substantially rehabilitation within the meaning of the ordinance, it qualifies for the density bonus.

Including the density bonus, the total number of residential units allowed By-Right are 56. The Licensed Land Surveyor that signed the site plan for the project confirms that the development site located at 38 Railroad Street contains 1.4 acres +/- . This is inconsistent with the records at the City of Haverhill Assessors office which shows a lot size of 1.1 acres; however the law is well settled that the title controls and furthermore, the site was surveyed by a licensed Land Surveyor. Based on the site containing 1.4 acres and the fact that the ordinance allows for 40 units per acre, the total number of residential units allowed By- Right is 56. The revised plan proposed by Mr. Cioto is for 48 residential units which is 8 units (14.3%) less than the number allowed, and 12 units (20%) less than the 60 units originally proposed for the site.

In addition to the significant reduction in the number of residential units, the project exceeds the number of required parking spaces. Initially the project required an easement from the City of Haverhill and an agreement with National Grid to allow for additional parking for the project, and the number of spaces equaled the number required by City of Haverhill regulations. This need has been eliminated and there is an agreement with the owners of the abutting property for a parking easement. The revised plan consists of 81 spaces where 72 are required, which exceeds the number of parking spaces required by the City of Haverhill by 9 spaces (11.2%).

SHEEHAN, SCHIAVONI, JUTRAS & MAGLIOCCHETTI, LLP
ATTORNEYS AT LAW

The agreement for the additional parking spaces next door not only provides additional parking for the development, but will allow for additional parking on street parking for residents along Railroad Street, many of whom currently have little or no legal parking options. The significant reduction in the number of residential units and required parking spaces, together with all the parking being on site and off the street, will allow for improved pedestrian and vehicular traffic flow, in and around the project. It should also be noted that the city of Haverhill has already taken steps to widen Railroad Street, thereby further improving parking and traffic flow.

The revised condominium development plan for 38 Railroad Street, in addition to addressing some of the major concerns of the neighbors, and significantly reducing the number of residential units, complies with the purpose of the Waterfront District, and meets the requirements of the ordinance. The applicant has submitted the required fees and information as set forth in this article; the project and site plan meet the requirements and standards as set forth in the ordinance; and any extraordinary adverse potential impacts of the project on nearby properties have been adequately mitigated. Consequently, the applicant requests City Council approval for the development of 48 residential condominium units at 38 Railroad Street.
